

Effluent Standard Operating Procedure: Slurry Tanker

Farm: _____

SOP Date: _____

Purpose: To ensure that all irrigation applications are made without exceeding the field capacity of the soil and meet Good Management Practise and comply with any relevant resource consent.

Any staff member operating irrigation must have been induced to the system first, a record of this must be noted in the staff training records.

Slurry Tanker Procedure:

1. Check with _____ or _____ that effluent is to be applied
2. Check soil moisture monitoring tape to ensure an effluent application is appropriate.

Soil Moisture Deficit must be greater than the Maximum Application Depth applied

3. Ensure effluent is not discharged within 100 m of a river.
4. Ensure effluent is not discharged within 20 m of any road.
5. Record Effluent Application Information – including solids applications.

Slurry Tanker Application:

1. NO EFFLUENT TO BE SPREAD IN XXXXXXXXXXXX
2. KEEP A RECORD OF WHERE ITS SPREAD & WHEN
3. EFFLUENT MUST NOT BE APPLIED WITHIN 20 METRES OF ANY ROAD

MAP OF EFFLUENT AREA
