

Annual Water Charges – July 2021 – June 2022

Water delivery charges are based on the number of shares you hold. One share equates to 0.01 litres per second of water that can be delivered.

The Board has set the annual water charges for the coming season, which will see the total scheme charge at \$6.19 per share.

This year the Board are implementing Environmental Charges. FEP Charges will be invoiced to the shareholding entity that is listed as the FEP Implementer. If your property is farmed by a separate party, they will receive the FEP charge on their account. These are broken down as follows: -

- \$750 per FEP for the first 50ha
- \$7.00 per ha for the balance of your property (total FEP area less 50ha)
- \$150 for Authorised Properties¹ under our consent (generally property under 50ha).

¹ Any Property that is:

- a. less than 10 hectares in area; or
- b. greater than 10 hectares, and where
 - i. the area of the property authorised to be irrigated with irrigation water from any source is:
 - A. less than 50 hectares; and
 - B. for any property where irrigation was occurring as at 13 February 2016, the area of the property authorised to be irrigated has not increased by more than 10 hectares above that which was irrigated as at 13 February 2016, and
 - ii. the area used for winter grazing (as defined in the Canterbury Land & Water Regional Plan at the Commencement Date) is less than:
 - A. 10 hectares, for any property that is less than 100 hectares in area; or
 - B. 10% of the area of the property for any property between 100 hectares and 1000 hectares in area; or
 - C. 100 hectares, for any property that is greater than 1000 hectares in area, may be treated by the Consent Holder as an Authorised Property for the purposes of this consent.
