On behalf of _____ I wish to apply to take stock water from the Ashburton Lyndhurst Irrigation Scheme (ALIL) for the period of the stock water trial commencing on 1 May 2020. I estimate that I will need _____ volume of stock water.

I have read the ALIL stock water management policy and agree to abide by the policy when taking stock water. I acknowledge that the stock water connection will need to comply with the ALIL backflow prevention policy.

I understand that there is an upfront fee of \$2,800.00 to be provided with stock water and that this fee is being taken to provide for a company issue flow meter and pressure reducing valve on the stock water connection at the primary off take OR group off take location. By signing this registration form, I am agreeing to the \$2,800 fee being invoiced to my shareholding entity (for a primary offtake) OR a portion of the \$2,800 divided by the number of group shareholders who want to take stock water (for a group off take.) In either case I agree that the fee is payable whether I receive the supply of stock water contemplated in this registration form or not.

I understand that the trial will run for a period of 12 months and may be extended by agreement between Ashburton District Council (ADC) and ALIL for a further 12 months.

While ALIL will make efforts to provide a continuous supply of stock water, I understand that there may be times when the ALIL network is unavailable for stock water delivery. I understand that ALIL has no liability to me or my shareholding entity or anyone else for failure to provide a supply of stock water at any time or at all.

I understand that I will continue to be rated for stock water by ADC for the length of the trial and that the fee structure for delivery of stock water will be determined following the trial. I will comply with all directions, requests and policies received from ALIL in respect of the supply and use of the stock water.
